DETAILED ACTION

1. Applicant's election with traverse of group I, claims 1-15, 19-23, and 31 in Paper No. 6 is acknowledged. The traversal is on the ground(s) that a search of all claims would not be an undue burden on the examiner. This is not found persuasive because examination of each group would require searches in completely different classes and subclasses.

The requirement is still deemed proper and is therefore made FINAL.

Claim 32 was accidentally omitted from the restriction and will be included in the elected group I to be examined on the merits.

Claim Rejections - 35 USC § 112

2. Claims 1-15, 19-23, and 31-32 are indefinite because claims merely setting forth physical characteristics desired in an article and not setting forth specific compositions, which would meet such characteristics are invalid as vague and indefinite because they cover any conceivable combination of ingredients, either presently existing or which might be discovered in the future. Claims 1-15, 19-23, and 31-32 would impart desired characteristics too broad and indefinite since it purports to cover everything which will perform the desired functions regardless of its composition and, in effect, recites compounds by what it is desired that they do rather than what they are. Ex parte Slob (PO BdApp) 157 USPQ 172. The claims do not define any particular structure or compositions, which would allow a proper comparison to the prior art.
